EXPERIENCE

Georgia Poultry Laboratory Network **Laboratory Technician III (Specialist)**

2013–Current

Broad range of experience, including diagnostic testing, laboratory automation, and GIS. Cartographic/GIS roles include data management, migration of GIS from ArcMap to ArcGIS Pro, epidemiology mapping, biosecurity and disease response maps, and creating reference maps for print.

EDUCATION

University of Wisconsin-Madison

Master of Science in Cartography/GIS

Expected Graduation 2020

Coursework includes cartographic design, web design, and coding. Web-based program requires solid independent problem solving and digital communication skills.

Kennesaw State University

Bachelor of Arts in Geography and GIS Certificate

Graduated 2018

Diverse, interdisciplinary educational path with a focus in geography, GIS, and philosophy. Presented at the 2018 KSU Student Symposium and 2019 National Conference of Undergraduate Research. Earned a 4.0 in all GIS certificate coursework.

Lanier Technical College

Associate of Applied Science in Clinical Laboratory Technology

Graduated 2013

Strong focus on technical, applicable laboratory skillsets, independent problem solving, and workflow efficiency. Graduated with highest honors.

SKILLS
